I'm a ninth grader from Millilani High School and I support Bill 10 because Hawaii's over reliance on imported oil. It contributes to our oil created plastic bag consumption on the island of O'ahu. The plastic bag consumption is contributing to the all ready overwhelming issue of ocean pollution and air pollution. I support this Bill because it'll help cut down on the pollution and will help the chain of oil created products decrease in an already oil reliant state. Its such a simple thing to change, to adapt and use renewable, non-oil created bags for common check out bags and yet we still continue to not make the change. It'll help the environment and the overall community in the long run.
